

**Message from  
His Excellency Mr. Abhisit Vejjajiva  
Prime Minister of the Kingdom of Thailand**

The International Conference on Information Technology to Celebrate S. Charmonman's 72<sup>nd</sup> Birthday was organized as an extension of the series of the International Conferences on eLearning for Knowledge-Based Society initiated by the Ministry of Information and Communication Technology. There is increasing interest in research and development of information and communication technology (ICT) and eLearning, as seen by the higher number of papers submitted at each year's Conference. This year, the 63 papers from 19 countries to be presented will share many innovative researches and ideas. Ultimately, the outcome of the Conference will contribute to the development of ICT in the world at large.

The Royal Thai Government recognises that ICT is an important tool for national development, as well as for the well-being and prosperity of our peoples. The Government is therefore strongly committed to developing a knowledge-based economy with modern ICT systems that would improve education, public health and logistics.

I congratulate the participants of this Conference and members of the organising committee, in particular, the Honourary Chairman, Prof.Dr. Srisakdi Charmonman, for this very successful event. May I also express my best wishes for his 72<sup>nd</sup> birthday anniversary.

A handwritten signature in blue ink, appearing to read "A. Vejjajiva". The signature is written in a cursive style with a horizontal line underneath.

**(Abhisit Vejjajiva)  
Prime Minister of the Kingdom of Thailand**
